NEW BEGINNINGS 2012……..

It is an honor for me to serve as CAS President for 2012. I am very excited for this opportunity! As you all probably know, 2012 will not be just another year as December 21st, 2012 is the day the Maya Long Count Calendar ends. So...what does that mean? There are many theories from earthquakes, destruction and the End of the World. Some Mayas, however, believe 2012 brings a “new beginning”. I believe, for CAS, 2012 will be a time for a new beginning with renewed energy and purpose.

An example of this involves our Colorado Rock Art Association. This organization has significant valuable assets that must be managed and protected. There has been some uncertainty as to whether this organization could continue. Many thanks go to Teresa Weedin who coordinated efforts to save CRAA. Members of CRAA met and a slate of officers was approved with Bev Goering serving as the new president. Also thanks go to Sharon Murphy who acted as facilitator for the brainstorming of the direction of CRAA in 2012-2013. CRAA was re-energized due to the efforts of so many dedicated members and will have a new beginning as a viable organization and chapter of CAS!

2012 also marks a new beginning for History Colorado. The new “History Colorado Center” was the location of the 26th Annual Historic Preservation Awards on February 1st, 2012. My husband and I attended the awards and toured the new facility (a wonderful personal tour courtesy of Richard Wilshusen, State Archaeologist!). We were joined by CAS members, the Murphys, the Mutaws, and the Warners. What a beautiful center! As the theme for the 2012 Archaeology and Historic Preservation Month will be “Connecting Colorado”, the goal of History Colorado is to showcase the archaeology/preservation networks and partnerships throughout the state, and how those are connecting Colorado in efforts to promote, protect and educate about archaeology and historic preservation. CAS is fortunate to be invited to participate in History Colorado Center’s Grand Opening in May.

Due to the tireless efforts of Terry Murphy, CAS members are developing activities CAS can provide to attendees for the grand opening. Many thanks to Richard Wilshusen, State Archaeologist, for his continuing support of CAS, and for allowing us to participate in History Colorado’s new beginning in May, 2012.

Two important areas for discussion within CAS for 2012 are (1) Education and (2) Long Range Planning. Both of these areas are vital to sustaining this organization. The Public Education Committee is essential to developing ways that CAS can provide education about archaeology and preservation. I want to thank Tom Sholes for his work with the Boy Scouts to create an anti-vandalism program, and for encouraging scout troops to pursue the Archaeology Merit Badge. CAS must continue to find ways to provide education which not only educates the public, but coincides with the long term goals of CAS. The Long Range Planning Committee (I’m happy to report that Dick Sundstrom will continue as Chair) aims to “increase the spirit of cooperation among Chapters and strengthen CAS as a whole”. Both committees need additional members, so please contact me if you are interested in serving.

CAS owes a debt of gratitude to Ken Andresen for 17 years of outstanding service on the Program for Avocational Archaeological Certification (PAAC) Board. As the CAS rep to the PAAC Board, Ken helped shape the future of the PAAC training for CAS members and other interested citizens. Ken’s efforts have had a significant influence on archaeological education and preservation. Thank you, Ken!

A new PAAC Board member for 2012 will be announced soon.

So, what else will happen in 2012? I believe CAS will remain a strong and growing organization. As I meet CAS members from around the state, I’m impressed with the talent, skill, knowledge, creativity and dedication of our members. YOU make CAS a great organization!
